# eg_virt related activities

VIRTIO features progress

- virtio-scmi – finalizing driver

- virtio-video decoder, encoder, and camera with hardcoded settings
  - Noticed that HW video decoding is not available in AGL: SPEC-4029
  - Provided review for videplayer app:
    https://gerrit.automotivelinux.org/gerrit/c/apps/videoplayer/+/26334
  - Checking camera application: arroundview (v4l2 based), camera-gstreamer

- virtio-can
  - SPEC-3776 - AGL RH boots with CAN errors

- virtio-bt
  - AGL Reference Hardware availability with BT

Other tasks

1. Triggering SCIF download remotely: idea is to solder relay.

2. Building firmware from AGL workspace: changes by Scott/Vasyl merged, need to fix missing 0001-rcar_gen3-plat-Delete-FDT-function-calls.patch
