#4	17/Sep.	-Toyota will explain the item below. ・Recap of the Previous Meeting (about Feature list). ・About workshop ・Development items for Trial software
#5	1/oct.	-Trial activity function fix

Recap of the Previous Meeting

Today's 1ˢᵗ topic is recap of the previous meeting.

Special SAT/SAT

#Walt suggested the workshop

Special SAT(#3)

- Thank you for supporting us to complete **"Wish List for IVI-PR"**.
    - We think the result made the requirements clear
    - Toyota voted based on the intention of our contribution to the features
    - By referring to this list, each company had better decide the priority
       to contribute.

- We requested **the submission of the requirement specification** to be
   tried during the Trial period within this Meeting deadline.
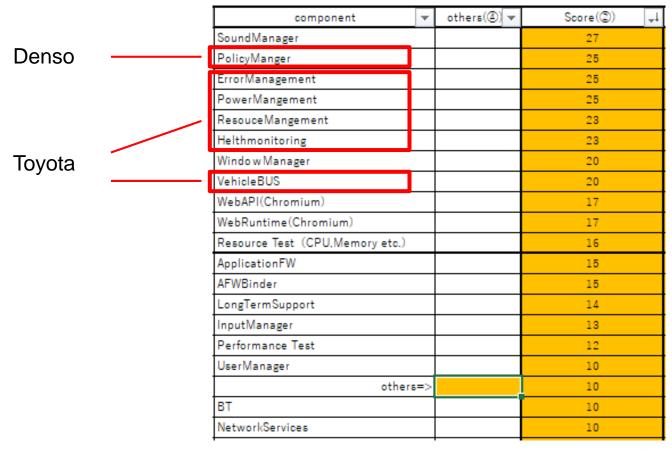

Workshop discussion items

Today's 2nd topic is about workshop.

- In Special SAT(#3), Walt suggested the workshop should be held.
- We are proposing IVI-PR Profile and we think it is necessary to discuss the significance of this Profile and the final goal.
- We would like to discuss at the Workshop as well to define IVI-PR direction.

- What is planned for Workshop?
  - Could you explain the current status, Walt?

- From Toyota, we would like to discuss about the Goal of IVI-PR.

  - **What is IVI-PR(Goal)**
    - What's the relationship bet. IVI-PR and IVI.
    - Roadmap
    - How we can unite them.
    - etc

Components to develop for IVI-PR Trial

Today's 3rd topic is what to develop for IVI-PR.

- Based on the result of "Wish List", Toyota plans to contribute these features.
- Denso-san plans to contribute Policy Manager.
- If anyone can contribute on some components, please let us know.

Denso

Toyota

Performance Test		12
UserManager		10
others=>		10
BT		10
NetworkServices		10

Table) Wish list for IVI-PR

Requirement Spec for Trial software.

About the request for the attendees,

- - Toyota uploaded the specification documents about the components
     to contribute.
- - Denso-san also will upload the Spec for their part by the end of this month.
- - Please review these Specs and give us comments on Confluence.
    - - We would like to have Q&A at the next Special SAT(#5)
    - - If there is no big problem, we will start the development.

Confluence Page URL
(Toyota) ProductReady_Spec_Ver.0.10Draft-A.docx
https://confluence.automotivelinux.org/display/IVIPR/ProductReady_Spec_Ver.0.10Draft

- - If anyone can add requirements for the Trial, please let us know here or by
     contacting indivisually.
- - And Trial or later is fine, so if you have any suggestions, we will accept them.

Requests

・Review the specs for Trial
・Comment if you have any Q

※As #5 task, we want to answer the comments.

Schedule after #4

Special SAT #5 (1/Oct)
- Trial activity function fix
- Be ready to start the development
- Please prepare ….

Workshop (2nd week of Oct)
- Let's discuss the relationship of Product Ready and IVI

After the Workshop(Just a plan)
- We think we can Complete the Special SAT after we start development.
- We will report the progress on SAT.
- If needed, re-start Special SAT.
